A Two-Column Study of Biosignal Transmission

Researcher A, Researcher B

1. Introduction

B Left-first paragraph: adaptive ECG codecs.

B Left-second paragraph: spectral regularity.

B Right-first paragraph: telemetry system.

B Right-second paragraph: streaming fusion.

Table 1. ECG error before and after normalization.

Signal	Baseline	Method	Metric
ECG100	DWT	Hybrid	PRD
ECG101	Delta	Adaptive	SNR
ECG102	RLE	Huffman	CR
ECG103	Wavelet	Entropy	MSE

Signal	Baseline	Method	Metric
ECG104	DWT	Hybrid	PRD
ECG105	Delta	Adaptive	SNR

2. Quantitative Results

The evaluation uses consistent sample rates.
